

TENSOR NETWORK PLATFORM (TNP) VISION

RESILIENT INFRASTRUCTURE

HDI (Decentralization) x ZERO-TOUCH PROVISIONING

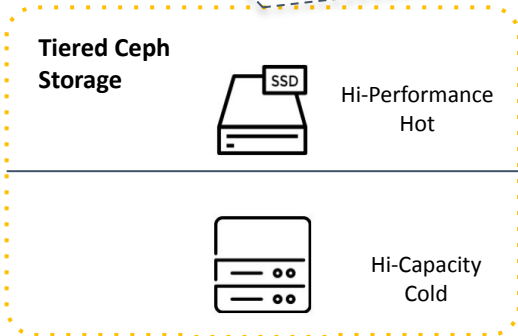

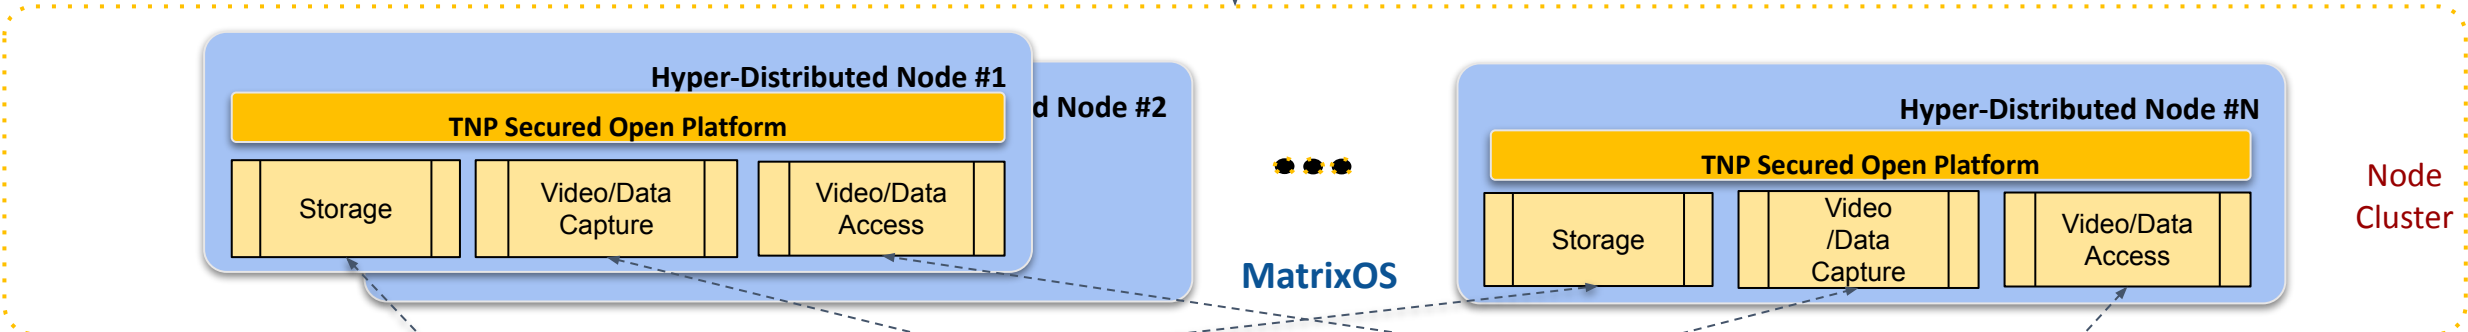

Hyperdistributed nodes tolerate multiple points of failure for robust redundancy

Every single node comes to live with zero-touch

Features for TNP

- Made for developer and operator
- No fears for IT, self healing network; Fast to replace with zero touch provisioning
- Open standard OS with the customizable environment to server different customers
- Disaggregation between HW and SW. No supply chain headaches

Node Virtual Functions
